Routine Business At County Council Meetings

Vulcan County Councillors held municipal, school and county meetings last week, and transacted mostly routine business.

At the school meeting held in the forenoon, the committee interviewed the representative of the A.T.A. in respect to salaries for two teachers whose qualifications have not been clearly defined.

Authorization was given to build a small addition to the Vulcan High School for the purpose of storing Industrial Arts projects. It is expected that the work on this building will commence immediately.

The school committee granted two bursaries for teacher training from applicants in the Carmangay area, and approved the purchase of a tape recorder for the Carmangay school as well as a radio and record player.

At the County Council meeting, an application from the B.A. Oil Co., for approval of the erection of a service station and coffee shop on the N.W. corner of Section 34-18-26-4, adjacent to Highway No. 23 north of Brant, was approved.

Applications for approval to subdivisions on part of the N.W. 5-17-24-4 adjacent to the Town of Vulcan and the N.E. 6-15-23-4 adjacent to the village of Champion, were not approved pending the receipt of more information.

Councillors passed a number of by-laws authorizing the sale of certain lands to the Manager of the Bow River Development, in accordance with the agreement with the Provincial Government.

A motion was passed to discontinue graveling operations for the present. It was understood that at a later council meeting arrangements could be continued to do some graveling under the Winter Works Program.

A motion was also passed to permit the grading crew to finish grading two miles of road south of the hamlet of Brant.

THE WEATHER

Better weather last week allowed more harvesting to be completed, and many farmers were able to finish or almost finish wheat and flax. Considerable harvesting still remains to be done from Vulcan north. A light, freezing rain Monday morning brought operations to a halt but skies appeared to be clearing Tuesday afternoon. A week's warm weather now would allow most harvesting to be completed.

Students Union Elects Officers

At the first Students' Union meeting of the new school year, the following officers were elected: President, Jim Graham; vice-president, Billy Cutforth; secretary, Sandra Schierman; and treasurer, Ann Jamison. Other officials named are: Editor of the Year Book, Kathleen Knive, who will appoint her co-editor. Sports director, Ken Orchard; social committee, Leoné Jones and Clark Warren; finance, Enid Fulton; constitutional director, Sandra Paris; press, Donna McKay.

Grade 10 students of the Vulcan High School this term were initiated by a merciless Grade 11 class. The costumes were colorful and funny. The girls were required to wear blouses inside-out and backwards, knee socks, blue jeans rolled to their knees, pots for hats and a three-inch collar of stiff cardboard. The boys wore nightgowns, baby bonnets and carried baby-bottles. Each student had a corn-starch mask, with black circles around the eyes. Part of their ritual was doing a dog trick and repeating, "We know the Grade 11's have superior intelligence" to every grade eleven student they met.

At the dance Friday evening, prizes were awarded to Laverne Andrews and Wayne Erickson, Linda Peters and Lawrence Lundgren for the best costumes.

A court was held Tuesday, Oct. 13 and penalties were handed out. Judge Donald Houlton presided and some twenty or more students were found guilty of various offences.

Takes Over Brooks Business

Charles Budd, who has been employed at Banks 99 Service for the past ten years, left last week to take over management of a Purity 99 service station at Brooks. His new enterprise will be known as Budd's 99 Service.

Mrs. Budd and children are remaining in Vulcan until arrangements are made for the sale of their house here and the securing of a home in Brooks.

Active in the affairs of the Grace E.U.B. Church and an enthusiastic golfer, Mr. Budd takes with him the best wishes of his numerous friends for every success in his new enterprise.

frock with puff sleeves and bustle bow patterned after that of the bride and bridesmaid, and carried a nosegay of pink and white carnations, while Master Richard Rollock acted as ring bearer.

Attending the groom as best man was Cornelius De Jong of Nobleford. The guests were ushered to their seats by Bill Plomp of Monarch; Peter Harbers, Medicine Hat, and Bill Tising, Nobleford.

During the signing of the register, the organist rendered a musical interlude.

Following the ceremony, a reception for 125 guests was held at the El Rancho. A three-tiered wedding cake topped with a miniature bride and groom and flanked with bowls of spray mums and tall white tapers centred the bride's table. Grace was said by Mrs. Anne Vandenberg, aunt of the groom.

Ivan Kesler proposed the toast to the bride in his capacity of master of ceremonies. The groom very fittingly responded. Following the reception, a social evening was held in the banquet room.

For her daughter's wedding, Mrs. Hlokooff chose a robin egg blue bengaline frock with black and white accessories and a corsage of white roses, while the groom's mother wore a navy blue lace afternoon dress with white accessories and a corsage of white roses.

For going away, the bride changed to a fitted blue suit with white accessories and a corsage of roses.

After a honeymoon spent in Calgary and surrounding points, the bride and groom will make their home at 705 4th St. S., Lethbridge.

Guests at the wedding came from British Columbia, Mossleigh, Calgary, Edmonton, Brooks, Milo, Vulcan, Nobleford and Saskatchewan.

CUB APPLE DAY

The Cub Apple Day is being held this Saturday, Oct. 24, in Vulcan. Also the boys will be around collecting bottles. These may also be left at Elder's Garage.

Hunters vs. Pheasants As Upland Bird Season Opens

What some persons termed "all of Southern Alberta's shotgun owners," were guests of a country full of pheasants last Saturday as the bird season opened.

Some of the colorful birds were perfect hosts, stared back at the 12-gauge barrel and got shot; some of them hung low and had to be coaxed into their debut to public life, and quite a batch of them had checked the calendar Friday night and were up at "hidden valley" by sun-up Saturday.

Friday night, station wagons, little cars, big cars, even trailer outfits full of hopeful hunters and their dogs enriched the town's economy by purchases of gas, shells, food and shelter in readiness for the eight a.m. opening.

By mid-morning the beautiful autumn heat had transformed the dusty ditch walkers from hunting jackets to shirtsleeves and even those who didn't see too many birds enjoyed the outing if only for the lush warmth of the day.

Despite the line-up of cars on practically every road the general consensus was that most people got their chance at the limit of three and there were lots of cases of hunters running into batches of six or eight cocks. One local man who usually gets his limit reported one pheasant for the morning

and more hunters than ever before. Another observer noted at least 50 out of town licences including those from B.C. and the States. He claims he's given up shooting on opening day.

One thing could be said of the day from the road hazard aspect. There was no danger of these roaring collisions occurring on normal days, as the majority of cars hit maximums of only 20 miles per hour as the look-outs watched for the peering head of a bird.

The head-on risk was high though with drivers forgetful of their purpose behind the wandering wheel as the search went on. The season continues to Oct. 31, when it will close until Nov. 3, when the second session will begin and go 'till the 28th.

SUCCESSFUL SHOOT—A well planned shoot early in October resulted in 14 Canada geese for these six hunters of the Champion district. From left to right are Don Buchan, Earl Smith, Dale Groves, Max Groves, Keith Groves

Policy Is Suggested

Consider Dress Standards For High School Pupils

Currently being studied and considered by the County of Vulcan School Committee is a proposal submitted by the County of Vulcan Principals Association recommending that a definite policy concerning standards of dress for pupils in the County high schools be adopted.

The proposed policy is designed to conform with the Revised General Regulations of the Department of Education, which state, in part, that "Every pupil registered in any school shall be required . . . to be clean and tidy in person and clothes . . ." and is based to a large extent on regulations which are in effect at city high schools.

The following reasons are advanced by the Principals Association in support of their recommendation that a definite policy on standards of dress in County high schools be adopted.

(a) Fads in dress, unreasonable hair cuts, etc., become a "uniform" which binds together groups of students who do not have a proper attitude toward the school and what the school is trying to accomplish.

(b) Training in what is acceptable form of dress is part of the task of schools in preparing students for jobs after High School or for entering other educational institutions.

(c) Sloppy forms of dress lower the tone of a school; it becomes a place for loafing rather than for learning.

(d) Long hair cuts are undesirable from the standpoint of cleanliness and also because of the hindrance in athletic activities. Some boys become pre-occupied with combing their hair or with trying to keep it in place.

(e) There is an improvement in discipline on the part of girls if they dress as girls. Neat forms of dress also tend to improve discipline on the part of boys.

(f) It has been observed that those students who are neat and reasonable in their dress are also the ones who are doing good work. There may not be a cause-effect relationship here, but the two do seem to go together.

(g) Some students do not realize that it is a privilege for them to be able to attend High School. Requiring them to meet certain standards of dress might help them to adopt a better attitude toward our schools.

The following standards are suggested for boys:

1. Boys should have a reasonable hair cut — one which would be acceptable to a prospective employer.

2. Shirts should be tucked in, have not more than one button open at the top, and must be worn with the collar down.

3. Work pants or casual slacks should be worn; jeans should not be rolled up above what is normal length for trousers and must not be tucked inside boots.

4. There should be no metal plates on shoes. Oxfords should be worn in preference to "jet" cowboy, or work boots.

The following standards are suggested for girls:

1. Girls should have hair combed

Flittons At Regina; Then To Winnipeg

Linda Gay and Gary Flitton, talented youngsters of the Alston district, were winners on the Dominion network television program "Talent Caravan" which was telecast from Calgary on Oct. 8, and will appear on the show from Regina this Thursday, Oct. 22.

They will also compete in the semi-finals to be telecast from Winnipeg on Nov. 12.

The best wishes of their many friends for their further success will accompany the Flittons.

Competition Expanded

Damage by ducks to crops still in the swath are being reported from northeast and southwest of Vulcan and hunters in those areas are managing to bag their limit quite frequently. Members of the Vulcan Fish and Game Association are starting to turn in more entries in the heavy duck and heavy goose competitions and also a few entries have been received in the now open pheasant competition.

In this event it is the longest tail feather that counts and in the event of a tie the weight of the bird will decide. The J. Wolfe Hardware is also the weigh-in station for this competition in the Vulcan area; Don McCord at Queenstown, and Joe Thomson in Milo.

A joint service of the Pentecostal and Evangelical United Brethren Churches was held in the latter church on Sunday, Oct. 18, at 7:30 p.m., a day which is set aside as Men's Day by the E.U.B. North Canada Conference.

The service was highlighted with a guitar and violin duet by Charlie Budd and Rev. Weurfel, pastor of the Evangelical United Brethren Church; an accordion solo by Garry Hix, and a vocal solo by Norman Leback. A men's chorus sang "The Old Rugged Cross." Accompanying the musical numbers on the piano was Sandra Schierman.

The evening message was brought by Rev. George Lagore of the Pentecostal Tabernacle who spoke on the life and responsibility of men in consideration of Christ.

2 families!

One family he digs for will live in a unit of a housing project for which he is excavating the foundation. The other family is his own — and includes four children. He is a good "digger" for dollars and his wife manages them well. So their family expenditures are kept in line with the family pay cheque.

Public works cover a lot of ground. The budget of the Minister of Public Works at Ottawa is in the millions of dollars . . . and his department is only one of many.

Money for all departments of government comes through the Minister of Finance who gets it largely in taxes from Canadians such as you. When more money is spent than is collected in taxes, government must borrow from you . . . or else create new money. The creation of new money is one factor that leads to inflation . . . which means your dollar buys less and less.

The government has been spending more than you have been paying in taxes. To narrow the gap between income and expenditures, new taxes have been imposed.

The next step should be to reduce expenditures, or at least hold the line. Undertaking new commitments — adding new welfare or other services — will only make it that much more difficult to pay our way. Tell your M.P. at Ottawa that since you are trying to save, you expect government to do the same.

You also help when you save more by means of life insurance, savings deposits, and the purchase of government bonds. Your savings help to create a SOUND dollar; and this, in turn, helps to create job security for you and more jobs for other Canadians.

Harvesting operations are moving along at full speed, with many farmers being finished, thanks to the spell of nice weather we have enjoyed during the past week.

Sunday visitors at the home of Mr. and Mrs. Paul Tomporowski were Mr. and Mrs. Jim O'Reilly of Vulcan, Mrs. Downie of Blackie and Mrs. Iru Miller of Calgary.

MOSSLEIGH

The Students of the Mossleigh school entered the track meet in Vulcan on Friday, Oct. 16, and placed fourth in points.

October 18 was Lay Sunday and services in the Mossleigh United Church were conducted by Mrs. R. Hurl with Mrs. Wheeler of Dalemead, reading the scripture and giving the sermon. Mrs. Wheeler is the charges' representative at the Presbytery meetings and gave a very interesting talk on different meetings.

Mild, sunny weather entered the district last week and the result was that many farmers finished combining, baling and stacking. A few more warm days would be appreciated as some grain fields are not quite dry enough.

CLEAN STORAGE FOR GRAIN

The provision of insect-free, weather-proof buildings for the storage of new grain, does much to ensure that grain will not spoil. It will pay, therefore, to thoroughly clean and spray all bins that are to be used for grain storage. Such precautions pay real dividends.

"...devotion to detail"

The demand for Volkswagens grows constantly. It has kept well ahead of expanding production. Today, Volkswagen is more than a car. It is a household word, a standard for what is good honest value. And that is because you, everyone, can actually "see" the quality in a Volkswagen. It is there in every detail, every part. You don't have to be an engineer to appreciate the way the doors are made. Open them. Close them. They shut solidly with the sound of authority. The hood is the same—no gaping spaces where it meets the body. This is what experts examine with pleasure—find technically excellent.

Such devotion to detail you find in every single part. This makes Volkswagen what it is.

And it was Volkswagen who pioneered in mass-production such outstanding features as engine in the rear, air cooling, torsion-bar

suspension on all four wheels—all sound engineering principles which other manufacturers are now adopting.

While Volkswagen is continually improving, the same basic design has been maintained. That is why the 100,000 Volkswagen owners in Canada enjoy such a high resale value for their cars.

And everywhere you go, you will find efficient Volkswagen service. From coast to coast, 280 authorized Volkswagen service centres are equipped with genuine parts. Factory-trained mechanics give you efficient, inexpensive service. All this is backed by a central 5-million dollar Spare Parts Depot at Toronto.

The car, the parts, the service—devotion to detail in every way.

High School Dress

Protests from some high school students can be expected if the proposal of the County of Vulcan Principals Association that a policy be adopted concerning standards of dress for high school students is approved by the County School Committee.

Be that as it may, we think that, generally speaking the proposed standards of dress are reasonable and should be acceptable to students and parents alike. Similar standards of dress have been in effect in various city high schools for a number of years, and there is no valid reason why lower standards should apply for country schools.

Teaching youngsters to dress properly should, of course, be the job of the parents, but if the standard of dress of some high school pupils is so low that the teachers feel that certain regulations are needed, there should certainly be no objections from the parents.

A careless dresser is, all too often, a careless worker and habits formed in the teen years are often carried into later years. Neatness in dress and personal appearance can be a real asset in life.

Letters to the Editor

To the Editor of The Advocate,
Dear Sir:
Could I please write a short letter to the ladies in the Vulcan County?

Dear Friends in the Farm Movement:

Each fall the farmers of Alberta get together for meetings in order to discuss their various problems and encourage everyone to join the farm organization again.

I would like to invite all the women in the Vulcan County to participate in the FWUA Rally on

Tuesday, Oct. 27, at the UFA Hall in Arrowwood, commencing at 10 a.m. An interesting program is planned for the entire day. Miss Anne Willis of Nanton will give a talk on "The North Country." Mrs. Richmond, alternate FWUA Director will speak on the Education Body of the FUA. Mrs. Braithwaite, Provincial President will show slides and speak on the recent conference of the Associated Country Women of the World. This should be of special interest to all Women's Institutes also.

I would like at this time, on behalf of the Farmers' Union to express my thanks to the Vulcan Advocate for their co-operation.

Sincerely, Margaret E. House,
FWUA Director, Dist. 12

Master Farmer Award Winner Is Cowling Family Of High River

Two southern Alberta farmers have been named Alberta's Master Farmer Families of 1959. Winners this year are the A. M. Robertson family of Carstairs and the George Cowling family of High River.

In announcing the awards, the Hon. L. C. Halmrast, Minister of Agriculture, emphasized that the program was based upon concepts of "Good Farming — Right Living, and Clear Thinking." Since inception of the awards eleven years ago 39 Alberta farm families have been previously honored.

"The main objective of the program is to provide Alberta farm families with a practical demonstration showing how a family can achieve success in agriculture and community and home life," Mr. Halmrast stated. "In both cases, the award winners of 1959 provide excellent examples of our aim."

Master Farmers receive a \$1,000 cash award, and an engraved plaque.

The Carstairs winner, A. M. Robertson was born and raised in the district. He started farming on his own in 1927 when he took his bride to a half-section of raw land. The Master Farmer now owns more than two sections of land, 650 acres of which are cultivated.

Mr. and Mrs. Robertson have raised two boys, both married. The eldest, Donald, is a graduate of the Faculty of Agriculture of the University of Alberta, and farms with his father. The youngest son, Gordon, who also farms in the district, has taken the farm mechanics course at the Calgary Institute of Technology and Art.

The Robertsons raise a herd of purebred Hereford cattle and a cross between Yorkshire-Lacombe hogs.

The other 1959 award winner, George Cowling of High River, was born in Manitoba and came to Alberta with his parents in 1912. He began farming on his own in 1932 and was married two years later.

The Cowlings have a family of four children. Pearl, the eldest has had university training and is presently teaching school in the High River area. The oldest son, Norman, is in his second year at the University of Alberta School of Engineering. Another son, Lloyd, has completed his high school education and is working with his father. A second daughter, Ellen is in grade six in school.

The Cowlings farm two sections of land with more than 400 acres under cultivation. All grain grown is used for feeding a herd of range Herefords built around a nucleus of 80 cows.

Both 1959 Master Farmers and their families have taken an active interest in community and church affairs, having served in various capacities in many organizations.

New Farm Credit Act Proclaimed

Canada's new Farm Credit Act passed by Parliament during the last session, went into effect Monday, Oct. 5, the Hon. Douglas S. Harkness, minister of agriculture announced.

The Act succeeded the Canadian Farm Loan Act, and all assets and responsibilities of the Canadian Farm Loan Board will be taken over by the new Farm Credit Corporation.

Four members of the five-member corporation have been named by the Governor in Council. These are: T. J. Rutherford, chairman, who will vacate his present position as director, Soldier Settlement and Veteran's Land Act; Lucien Lalonde, deputy minister, department of veterans affairs; A. S. Abell, director, federal-provincial relations, department of finance, and acting commissioner, Canadian Farm Loan Board; A. H. Turner, Economics division, department of agriculture, and vice-chairman, Agricultural Stabilization Board.

Messrs. Rutherford, Abell and Turner were the members of an inter-departmental committee that made an exhaustive study of the farm credit situation and reported to the Government prior to the drafting of the Farm Credit Act. Assisting the corporation will be an advisory committee which will

be appointed by the Minister of agriculture.

Under the new farm credit system, up to \$20,000 in loans will be made available instead of the previous maximum of \$15,000, for the purchase of a farm or farm improvement. Interest on the loans has been fixed at five per cent to make it more equitable to borrowers than a fluctuating rate.

Further, provisions are now more flexible. For example, a loan can be based on 75 per cent of the appraised value of the farm instead of 65 per cent.

Tailored to meet the needs of the younger farmer, a new type of assistance — the supervised loan — can be made to applicants between 21 and 45 years, to allow them to set up an economical farm unit. This type of loan may be as high as 75 per cent of the appraised value of the farm and chattels, but may not exceed \$27,500.

Good character is still the best collateral for a loan.

MAJORVILLE

Cold wintry weather has at last given way to Indian Summer conditions and everyone is hoping it will last for a while. Combines started rolling the middle of the week to pick up and combine flax. Some reports of flax making 20 bushels per acre have been received, others report as low as 12 bushels. Crows are reported feeding on a strip of sunflowers. Despite the wintry weather we have had, many of our feathered friends are still around. Robins and meadow larks, as well as the unpopular crows, starlings and blackbirds are seen daily. Ducks and geese are thinning out, but this could be due to hunters who have been numerous since the season opened.

Mrs. Gorge Heather has been in Bellingham, Wash., where she went upon receiving word that her sister was ill.

Mr. and Mrs. Allan Yule of Calgary were Thanksgiving weekend guests at the home of Mr. and Mrs. Bartsch. Jay was also home for the long weekend.

Also of interest in the birth of a son to Mr. and Mrs. George MacDonald of Durham, Ont. Mrs. MacDonald was formerly Hazel Klemme, daughter of Mr. and Mrs. Bill Klemme.

strong spent a few days in the foothills, hunting for elk, but if their families were depending on the result of their hunt, there won't be much meat on the table this winter. Mrs. Armstrong went to Calgary while Lloyd was staying with his sister, Dorothy Clements. Truckers have been busy for the past week hauling cattle home from the community pasture. Once again they had nice weather for this chore.

Mrs. Freda Prentice spent a few days last week at Ensign looking after the household of her daughter, Mrs. Jack Hunter, who was a victim of the flu.

Mrs. Laura Sutherland was a visitor to Calgary for four days last week.

Milo-Queenstown W.M.F.

The Milo-Queenstown W.M.F. met for their October meeting at the home of Mrs. David Deitz, with 14 members and two visitors present.

The meeting opened with the hymn, "Blest Be The Tie That Binds," followed by "The Lord's Prayer". Pastor Foster led the devotional. A bulletin on Missions by Mrs. N. Foster, was read by Mrs. Prentice and suggested that instead of the annual exchange of Christmas gifts, the members donate the cost of the gift to the friends for Nome Alaska Mission.

Plans were made for the annual tea and bazaar. It was also reported that a phone survey had been in favor of continuing to "Feed the Lions" for the coming season. \$150 was voted towards the parsonage loan and as this is "Thank Offering" month the collection of \$11 will be sent to WMF headquarters. A number of pretty aprons and embroidery work was turned in for the bazaar.

The meeting closed with the hymn, "What A Friend We Have In Jesus" and a prayer by Pastor Foster. Mrs. Bob Deitz and Mrs. Bruce Henry assisted the hostess in serving a lovely lunch.
